SEVEN BURN TO DEATH

LONDON HOTEL AT SAN ANGELO,
TEX., IS COMPLETELY DE-
STROYED BY FIRE.

BODIES BADLY CHARRED

Victims Are Women and Children
Who Got Out on a Small Balcony
and Were Afraid to Jump Into
Blankets Held for Them—Three
Other Persons Missing, but Are Be-
lieved to Have Escaped.

San Angelo, Tex., Aug. 11.—Fire
burned seven persons to death and de-
stroyed the London hotel during the
morning, valued at \$75,000. The dead
are: Mrs. Landon, wife of the hotel
keeper; Edward Hendrick, Waco,
Tex.; Mrs. Fowler, Houston, Tex.;
grandson of Mrs. Fowler; Mrs. Schu-
limsky, Houston, and two sons.

All of the bodies that have been re-
covered are fearfully charred. When
the clerk discovered the fire, the din-
ing room was full of flames. He
rushed up the main stairway, kicking
in doors, calling out at the top of his
voice to the guests.

Some could not be aroused by this
means, and firemen were discharged
outside of the hotel. There were sev-
enty-five people in the house, and it
is thought that all of them got out safe-
ly with the exception of the seven
burned. Three others, however, have
not been located, but are believed to
be safe. The seven women and chil-
dren who perished got out on a small
balcony and were told to jump into
blankets which were being held for
them. They were afraid and waited
until the platform fell back into the
flames which were licking up the big
frame house. In addition to the hotel,
three stable and half a dozen stores
were burned, only the greatest effort
preventing the whole business section
of town from being destroyed.

WAS AN OLD SETTLER.

Reuben B. Galusha, Well Known St.
Paul Attorney, Is Dead.
St. Paul, Aug. 11.—The death of
Reuben B. Galusha, which occurred
at the hospital at Rochester, adds an-
other name to the list of the old set-
tlers of St. Paul who have joined the
great majority. The decedent came to
St. Paul in 1858, and had been promi-
nently identified with the legal his-
tory of the city since that date. On
his arrival here he at once entered in-
to the practice of his profession, and
for many years was one of the fore-
most practitioners in the courts. He
was connected with the late Henry J.
Horn in business, and was one of the
attorneys who took part in the litiga-
tion following the transfer of the old
St. Paul and Pacific railroad to the
St. Paul, Minneapolis and Manitoba
company. For a number of years he
was general attorney for this road, but
retired from the position in 1885.
Since that date until a few years ago
he was engaged in private practice of
his profession. Three years ago he
was obliged to retire owing to ill
health.

TWO KILLED OUTRIGHT.

Freight and Passenger Trains Collide
Near Wall Creek, Va.
Danville, Va., Aug. 10.—A wreck in
which a northbound passenger col-
lided with a southbound freight col-
lided on the Southern railway near
Wall Creek.

Two men were killed outright and
several others seriously injured. Both
locomotives and several cars were
demolished. A special relief train
with doctors was hurried to the scene.
The injured were brought to this city
and placed in a hospital.

The killed are: Jerome Carter,
Augusta, Ga., and an unidentified man
whose body was mutilated almost be-
yond recognition.

The engineers and firemen and
postal clerks jumped and were all
more or less bruised. None of the
passengers were among the seriously
injured.

CAUSED A WRECK.

Youth Makes a Confession to the
Omaha Authorities.
Omaha, Neb., Aug. 11.—Delbert
Preston, a fifteen-year-old boy, has
made a confession to the authorities
of having caused the wreck of a pas-
senger train on the Rock Island near
South Omaha, July 24, by which one
man was killed and several others
injured.

According to his story he was
spending an idle hour on the track
and picked up an iron spike, which he
inadvertently laid lying on the rail,
with the head toward the coming pas-
senger train.

Teller Said to Be Short \$40,000.

Denver, Aug. 11.—Leonard M.
Dingle, teller of the First National
bank of Aspen, was arrested in this
city charged with embezzling
\$40,000 from the bank. It is said that
speculations have been going on for
some time and that the money was
lost in gambling. It is also said that
the gamblers of Aspen have returned
about \$15,000 to the bank and Dingle's
bonds with a surety company will
make up the larger portion of the re-
mainder of the shortage.

KING EDWARD CROWNED.

Coronation Ceremony Carried Out
Without a Hitch.

London, Aug. 11.—The coronation of
King Edward and Queen Alexandra
took place shortly after noon Saturday
in Westminster abbey. In all respects
the celebration was impressive and it
was carried out with a perfection of
detail and lack of accidents that has
rarely characterized similar displays.
That pride of empire which marked
Queen Victoria's jubilee was lacking;
and in its stead there pervaded all
classes a keen recollection that only
six weeks ago their king lay in danger
of death, and this produced thankfulness
and genuine sympathy for the king.
This feeling was voiced by the arch-
bishop of Canterbury, when he insert-
ed in one of the coronation prayers,
the words "for whose recovery we now
give thee heartfelt thanks." Yet this
did not prevent the public from voicing
appreciation of such military display
as the short procession gave them
a chance to see.

Earl Roberts, commander-in-chief of
the forces, was once more the hero of
the hour and, next to the king himself,
received the heartiest welcome of the
assembled crowds.
Lord Kitchener received thunderous
overtures, which he acknowledged
neither by look nor bow, but as Eng-
lish crowds are used to this treat-
ment from Lord Kitchener, it quite
failed to suppress the enthusiasm.
But it was for the king and queen
themselves that the people really let
themselves loose. Throughout the day
wherever and whenever their majes-
ties were seen the cheers were loud
and long and especially was this so
on the return journey of the king and
queen to Buckingham palace.

LAST BULLETIN ISSUED.

King Edward Stood the Strain of the
Coronation Well.

London, Aug. 11.—The festivities in
London were continued Sunday.
There were considerable crowds al-
most all day long in the vicinity of
Buckingham palace and along the
route of Saturday's procession, view-
ing the decorations and watching the
flow of notable personages to and
from the various thanksgiving ser-
vices. In the evening the Canadian
arch, which, as an exceptional novelty
for Sunday, was brilliantly illumina-
ted, was a great center of attraction
and served to bring an immense con-
course of people into the neighbor-
hood.

In spite of the welcome announce-
ment that King Edward had borne
the fatigues of coronation day well,
the bulletin concerning his health was
awaited with a certain degree of
anxiety. The bulletin is as follows:
"His majesty bore the strain of the
coronation ceremony perfectly well
and experienced but little fatigue.
The king had a good night and his
condition is in every way satisfactory.
No further bulletin will be issued."

DONATES OSBORNE HOUSE.

King Edward Makes a Munificent
Gift to the British Nation.

London, Aug. 11.—King Edward has
signaled his coronation in a memor-
able manner by the munificent gift
to the nation of Osborne House, one
of the favorite residences of the late
Queen Victoria.
The gift is made in a message to the
people, addressed to Prime Minister
Balfour, an extract of which follows:
"As Osborne House is sacred to the
memory of the late queen, it is the
king's wish that, with the exception of
those apartments which were in the
personal occupation of her majesty,
his people shall always have access to
the house, which must ever be asso-
ciated with her beloved name. As re-
gards the rest of the building, the
king hopes it may be devoted to na-
tional purposes and be converted into
a convalescent home for officers of the
navy and army whose health has been
impaired in rendering service to their
country."

HOPE TO STRIKE OIL IN IOWA.

Two Companies Continue the Search
in the Wapsie Valley.

Waterloo, Ia., Aug. 11.—The excite-
ment over the discovery of oil in the
region of Frederika in Bremer county,
north of here, continues at a high ten-
sion, despite the prospectors have not
been able to locate a vein of the fluid.
Two stock companies are now or-
ganized with sufficient paid up capital
to carry forward all necessary work,
and the work of drilling for a vein is
being steadily pushed. The pioneer
company is known as the Oldest.
It was formed shortly after the dis-
covery of heavy traces of oil in the
well at the home of George Stauffel-
baum in the village of Frederika.
This well has been showing strange
signs for several months and the
water had become unfit for use. The
owner of the premises at last called in
experts and they pronounced the sur-
face of the water covered with oil.
This was pumped away, but the same
quantity gathered again. It was no-
ticed that no matter how often the
well was cleaned of the oil it would
immediately make its reappearance in
the water.

Severe Storm at Kansas City.

Kansas City, Aug. 11.—A wind
storm that raged for half an hour, ac-
companied by lightning and rain, is
said to have been the severest in fif-
teen years. In the business streets
numerous plate glass fronts were
broken, signs and awnings torn down
and rickety structures partly demol-
ished. In the residence districts sev-
eral thousand trees were overthrown
and numerous windows smashed.

BARCELONA IS TAKEN

VENEZUELAN REBELS CAPTURE
THE TOWN AFTER THREE
DAYS' FIGHTING.

GENERAL BRAVO KILLED

Government Forces Lose Sixty Men
and the Above Officer During the
Engagement—Position of President
Castro at Cua Is Still Complicated
and Difficult—Heavy Rains Impede
His Advance.

Port of Spain, Island of Trinidad, B.
W. I., Aug. 11.—News has reached
here from Venezuela that after three
days of very severe fighting in the
streets of Barcelona, in the state of
Bermudez, the revolutionists under
command of General Penaloza cap-
tured the town from the government
forces. The government lost sixty
men and General Ruperto Bravo.
The position of President Castro
at Cua, twenty-five miles from Car-
acas, is still complicated and difficult.
His forces cannot advance because of
the heavy rains and the consequent
difficulties in transporting artillery.
The revolutionists have found it very
difficult to march over the country,
and their proposed operations will
take longer than was expected.

DRIVES FRENCH OUT OF SIAM.

Anglo-Japanese Alliance Menaces In-
terests in the Far East.

Paris, Aug. 11.—Events may be re-
garded for serious trouble in Siam.
Since the conclusion of the alliances
between Japan and Britain the Siam-
ese have taken an attitude in their
dealings with the French which has
greatly irritated M. Delcasse. France
has immense interests in that part of
Asia. Her Indo-Chinese possessions
are among her richest colonial jewels,
and it is no secret that the French
government had set its heart on di-
recting the foreign policy of Siam.
Matters seem to be shaping now for
a Siam-Siamese alliance. With this
consummated Britain and not
France would ultimately direct Siam
in her relations with Europe. British
diplomacy at Bangkok has actively
promoted this scheme, and Japan has
been supplying the Siamese with arms
and ammunition to punish the Siam
rebels.

It is extremely unfortunate for
France that just at this critical mo-
ment she has lost the service of M.
Dumer, who for many years was
French governor of Indo-China. He
is a very able man and had strongly
intrenched the French power along
the Siamese border. His successor, M.
Beau, is well qualified for the duties,
but lacks special experience.
If Siam joins the Anglo-Japanese
alliance, Britain's influence in Asia
will soon be overwhelming.

DECLINED TO OBEY ORDERS.

French Army Officer Refuses to Close
Congregationist Schools.

Vannes, Department of Morbihan,
France, Aug. 11.—The prefect of the
department of Morbihan asked that a
detachment of cavalry be sent to as-
sist the authorities in their efforts to
close the unauthorized congregation-
ist schools at Ploermel. The general
commanding the district ordered Lieu-
tenant Colonel St. Remy to go to
Ploermel with a part of his regiment.

Colonel St. Remy refused to obey this
order, declaring his religious senti-
ments forbade him to co-operate in
closing congregationist establish-
ments.
General Andre, the war minister,
has ordered Colonel St. Remy to be
confined in the fortress of Belle Isle
and to be court-martialed for insubor-
dination.

A SENSATION SPOILED.

Dr. Wilson Was Never Captured and
Sentenced to Death in Nicaragua.

Norwalk, O., Aug. 11.—Fred Wilson,
brother of Dr. Russell Wilson, whose
report of capture and subsequent sen-
tence to death has been the subject
for international discussion between
the United States and the Nicaraguan
governments, arrived here during the
day en route to his home near Milan.
Mr. Wilson states that his brother
never was captured. Neither Mr. Wil-
son nor his brother have been in Blue-
fields for a month and he is at a loss
to understand how the report started.

OIL FIND IN MICHIGAN.

Vein of an Excellent Quality Struck
Near Mass City.

Mass City, Mich., Aug. 11.—While
digging for water on his homestead
near here John Pearson encountered
a vein of oil which gushed out in large
volume.
Already the petroleum has covered
several acres some inches deep and a
lake is being rapidly formed, no
apparatus being at hand to stop the
flow. The oil is of excellent quality
and appears to be inexhaustible in
quantity.

Brothers Assassinated.

Sneedville, Tenn., Aug. 11.—News
has just reached here of the shooting
from ambush of Wiley and William
Brewer while on their way to their
voting precinct in a remote section of
the county. William Brewer was in-
stantly killed and Wiley, though prob-
ably fatally wounded, was alive when
the news of the tragedy reached
Sneedville.

Negroes Kill a County Attorney.
Columbia, Tex., Aug. 11.—County
Attorney Edward C. Smith was killed
and Deputy Sheriff Cochran killed
wounded by a party of negroes, who
were attempting to prevent the arrest
of one of their number. The negroes
escaped by swimming the Brazos river.
The sheriff has a number of pos-
sibles and has offered a heavy reward.

Colored Christian Congress Ends.

Atlanta, Ga., Aug. 11.—The adoption
of an elaborate set of resolutions and
the farewell address of Bishop J. W.
Gaines brought to a close the Negro
Young People's Christian and Educa-
tional Congress, which has been in
session in this city for almost a week.
The closing meeting was attended by
more than 6,000 persons.

Crew of Ten Drowned.

St. Johns, N. F., Aug. 11.—A schoo-
ner has gone ashore at Farnyard
islands. Her crew of ten persons was
drowned.

Aeronaut Falls to His Death.

Millersburg, Ind., Aug. 11.—Frank
Reed, an aeronaut, fell while making
a parachute leap and was instantly
killed. His wife was among the spec-
tators and witnessed his fall to death.

Dies in a Fit of Anger.

Beloit, Wis., Aug. 11.—During a fit
of anger over the ruin of her flower
garden by a drove of horses Mrs. Gil-
bert Halverson was stricken with
apoplexy and died.

Painfully Honest.

Prude—Well, why did you refuse
him after you had taken him away
from the girl he was engaged to?
Flirt—Oh, I haven't quite reached the
point when I will receive stolen goods.

Beliefs About the Rainbow.
In many countries the rainbow is
spoken of as being a great bent pump
or siphon tube, drawing water from
the earth by mechanical means. In
parts of Russia, in the Don country,
and also in Moscow and vicinity it is
known by a name which is equivalent
to "the bent water pipe." In nearly
all the Slavonic dialects it is known by
terms signifying "the cloud siphon,"
and in Hungary it is "the pump,"
"Noah's pump" and "God's pump."
The Malayan natives call it by the
same name that they call their banded
water cobra (necheta), only that they
add "bebo" (meaning double headed),
the equivalent in our language being
the "double headed watersnake." They
tell you that the bow is a real thing of
life, that it drinks with its two mouths
and that the water is transferred to the
clouds through an opening in the upper
side of the center of the great arch.

In the province of Charkoy, Russia,
the rainbow is said to drain the wells,
and to prevent this many are provided
with heavy, tight fitting stone plat-
forms. In the province of Saratoy the
bow is said to be under control of
three angels, one of whom pumps the
water, the second "feeds" the clouds
and the third sends the rain.

Man, Woman and Love.
In one of his books Max O'Rell, the
witty Frenchman, gives the following
advice:

"If you are bald, never make love
to a woman taller than you. Looked
at from below, you are all right.
"Never let your ladylove see you
without a collar; no—not even the very
wife of your bosom. A man's head
without a collar is like a bouquet
without a holder.
"Never marry a woman richer than

you, one taller than you, or one older
than you. Be always gently superior
to your wife in fortune, in size and in
age, so that in every possible way she
may appeal to you for help or protec-
tion, either through your purse, your
strength or your experience in life.
Marry her at an age that will always
enable you to play with her all the
different characteristic parts of a hus-
band—a chum, a lover, an adviser, a
protector and just a tiny suspicion of
a father."

Stories of London Weather.
The Manchester Guardian tells a
good story of the weather. The scene
was a Strand omnibus. A leaden sky
was overhead, the rain poured down
uncompromisingly, mud was under
foot. A red capped Parsee, who had
been sitting near the dripping driver,
got down as the conductor came up.
"What sort o' chap is that?" asked
the driver. "Don't yer know that?"
answered the conductor. "Why, that's
one o' them Indians that worship the
sun." "Worship the sun?" said the
silvering driver. "I suppose 'e's come
over 'ere to 'ave a rest!"

This recalls the reply given on one
occasion by an eastern potentate to
Queen Victoria, who asked him wheth-
er his people did not worship the sun.
"Yes, your majesty," said the oriental,
"and if you saw him you would wor-
ship him also."

Wifely Appreciation.

"There's one thing I will say about
Charley," said young Mrs. Tokins;
"he has a lovely disposition even if he
doesn't always display it at home."
"How do you know?"
"I heard some of his Wall street
friends talking about him. They say
he is a perfect lamb."—Washington

DONATES OSBORNE HOUSE.

King Edward Makes a Munificent Gift to the British Nation.

London, Aug. 11.—King Edward has signified his coronation in a memorable manner by the munificent gift to the nation of Osborne House, one of the favorite residences of the late Queen Victoria.

The gift is made in a message to the people, addressed to Prime Minister Balfour, an extract of which follows:

"As Osborne House is sacred to the memory of the late queen, it is the king's wish that, with the exception of those apartments which were in the personal occupation of her majesty, his people shall always have access to the house, which must ever be associated with her beloved name. As regards the rest of the building, the king hopes it may be devoted to national purposes and be converted into a convalescent home for officers of the navy and army whose health has been impaired in rendering service to their country."

HOPE TO STRIKE OIL IN IOWA.

Two Companies Continue the Search in the Wapsie Valley.

Waterloo, Ia., Aug. 11.—The excitement over the discovery of oil in the region of Frederika in Bremer county, north of here, continues at a high tension, despite the prospectors have not been able to locate a vein of the fluid.

Two stock companies are now organized with sufficient paid up capital to carry forward all necessary work, and the work of drilling for a vein is being steadily pushed. The oldest company is known as the Pioneer. It was formed shortly after the discovery of heavy traces of oil in the well at the home of George Stauffbaum in the village of Frederika.

This well has been showing strange signs for several months and the water had become unfit for use. The owner of the premises at last called in experts and they pronounced the surface of the water covered with oil. This was pumped away, but the same quantity gathered again. It was noticed that no matter how often the well was cleaned of the oil it would immediately make its reappearance in the water.

Severe Storm at Kansas City.

Kansas City, Aug. 11.—A wind storm that raged for half an hour, accompanied by lightning and rain, is said to have been the severest in fifteen years. In the business streets numerous plate glass fronts were broken, signs and awnings torn down and rickety structures partly demolished. In the residence districts several thousand trees were overthrown and numerous windows smashed.

DAYS' FIGHTING.

GENERAL BRAVO KILLED

Government Forces Loses Sixty Men

and the Above Officer During the

Engagement—Position of President

Castro at Cua Is Still Complicated

and Difficult—Heavy Rains Impede

His Advance.

Port of Spain, Island of Trinidad, B. W. I., Aug. 11.—News has reached

here from Venezuela that after three days of very severe fighting in the streets of Barcelona, in the state of Bermudez, the revolutionists under command of General Penaloza captured the town from the government forces. The government lost sixty men and General Ruperto Bravo.

The position of President Castro at Cua, twenty-five miles from Caracas, is still complicated and difficult. His forces cannot advance because of the heavy rains and the consequent difficulties in transporting artillery. The revolutionists have found it very difficult to march over the country, and their proposed operations will take longer than was expected.

DRIVES FRENCH OUT OF SIAM.

Anglo-Japanese Alliance Menaces Interests in the Far East.

Paris, Aug. 11.—Events may be ripening for serious trouble in Siam. Since the conclusion of the alliances between Japan and Britain the Siamese have taken an attitude in their dealings with the French which has greatly irritated M. Delcasse. France has immense interests in that part of Asia. Her Indo-Chinese possessions are among her richest colonial jewels, and it is no secret that the French government had set its heart on directing the foreign policy of Siam.

Matters seem to be shaping now for a Japanese-Siamese alliance. With this consummated Britain and not France would ultimately direct Siam in her relations with Europe. British diplomacy at Bangkok has actively promoted this scheme, and Japan has been supplying the Siamese with arms and ammunition to punish the Siam rebels.

It is extremely unfortunate for France that just at this critical moment she has lost the service of M. Dumer, who for many years was French governor of Indo-China. He is a very able man and had strongly entrenched the French power along the Siamese border. His successor, M. Beau, is well qualified for the duties, but lacks special experience.

If Siam joins the Anglo-Japanese alliance, Britain's influence in Asia will soon be overwhelming.

DECLINED TO OBEY ORDERS.

French Army Officer Refuses to Close

Congregationalist Schools.

Vannes, Department of Morbihan, France, Aug. 11.—The prefect of the department of Morbihan asked that a detachment of cavalry be sent to assist the authorities in their efforts to close the unauthorized congregationalist schools at Ploermel. The general commanding the district ordered Lieutenant Colonel St. Remy to go to Ploermel with a part of his regiment.

Colony St. Remy refused to obey this order, declaring his religious sentiments forbade him to co-operate in closing congregationalist establishments.

General Andre, the war minister, has ordered Colonel St. Remy to be confined in the fortress of Belle Isle and to be court-martialed for insubordination.

Dr. Wilson Was Never Captured and

Sentenced to Death in Nicaragua.

Norwalk, O., Aug. 11.—Fred Wilson, brother of Dr. Russell Wilson, whose reported capture and subsequent sentence to death has been the subject for international discussion between the United States and the Nicaraguan governments, arrived here during the day en route to his home near Milan.

Mr. Wilson states that his brother never was captured. Neither Mr. Wilson nor his brother have been in Bluefields for a month and he is at a loss to understand how the report started.

OIL FIND IN MICHIGAN.

Vein of an Excellent Quality Struck

Near Mass City.

Mass City, Mich., Aug. 11.—While digging for water on his homestead near here John Pearson encountered a vein of oil which gushed out in large volume.

Already the petroleum has covered several acres some inches deep and a lake is being rapidly formed, no apparatus being at hand to stop the flow. The oil is of excellent quality and appears to be inexhaustible in quantity.

Brothers Assassinated.

Sneedville, Tenn., Aug. 11.—News

POLITICAL ANNOUNCEMENTS.

FOR COUNTY ATTORNEY.

Thereby announce myself a candidate upon the republican ticket for nomination as county attorney at the primary election, September 10th, 1902, and respectfully ask the people of Crow Wing county for their friendly support. Have been a resident of this county since March, 1900, and a member of the Wisconsin bar since 1896, and of the Minnesota bar since 1900. If nominated at the primary September 10th and subsequently elected November 4th, 1902, I hope to prove myself an efficient and useful public servant. Respectfully,
E. W. CRANE,

NORTH END GOSSIP.

Mrs. Free Doan was a social caller at our humble abode on Sunday last. Orie Edicks has wheat and oats very near six feet high with heads 12 inches long.

H. U. Butterfield has hired out to work for Dick Poston for nine months, at twenty-six dollars per month.

Master Johnie Doan has been taken to the hospital at Brainerd, with a poisoned face. His eyes are both swollen shut.

Nels Gaardner has taken the contract of putting up the grass on Mr. Doan's Daggett Brook meadows at \$2.25 per ton.

There is a fine grass crop this season and no one need go short on hay this winter if he will only get a move on himself.

There would have been an abundance of blueberries for the settlers if the Indians had been kept where they belong, at Leech Lake.

A. M. Davis and family, who have been working for Dick Poston, have retired to private life and are now domiciled in Henry Steinback's house.

Independence and pride are very commendable requisites if one has the wherewith to back it up, but it does not work well with poverty as a companion.

Born, to Mr. and Mrs. H. G. Butterfield, a pair of twins, both girls, on the 6th inst. This makes the second set of twins born in the family within three years.

Nick Werthesen, who has been making his home all summer at Eagle Lake ranch, was taken to the Brainerd hospital last week, suffering with an aggravated case of gallstone.

Mr. Whitely Jr. is now surveying the numerous roads through the towns of Eagle Lake and Emily, and before another spring rolls around we hope to have some good roads to show the traveling public.

Six year old, Ivy Butterfield, on the sixth inst. while playing in her father's shop, and running the drilling machine, got her middle finger of the left hand caught in the cogs and tore off the nail and otherwise lacerated the flesh, but luckily the bone escaped injury.

Some of our residents find since the recent survey has been made that they do not live on their own land at all, while again some find their crops growing on their neighbor's property. May be the people will cease calling on lumber cruisers to run their land lines after this.

Rest.

When a razor refuses to take an edge, the barber stops fussing with it, lays it away, and in a little while, no one knows just how, the edge returns. If we treated our brains and our bodies that way instead of wearing them out on the grindstone, it would be a good deal more sensible.

The rack was one of the instruments of torture in the olden time. The music rack is usually used for the same purpose today.

LAW UNCONSTITUTIONAL.

Judge Brown Renders Decision Anent Inheritance Law Which is of Importance

Judge Bunn in the district court of Hennepin county rendered a decision of great importance in the matter of the estate of Stina Johnson. He overruled the action of Probate Judge Bazille, who refused to issue a decree for the distribution of the estate until the inheritance tax should have been paid, and grants an order directing the probate judge to proceed to the distribution of the estate. This order is based on Judge Bunn's conclusion that the inheritance tax law of 1901 is unconstitutional and void. Judge Bunn's decision, if sustained by the supreme court, will leave the state without an inheritance tax law.

Judge Bunn finds that the law of 1901 is invalid for practically the same defects which caused the supreme court to invalidate the act of 1897. The latter statute was so written as to apply only to personal property, and on this account was held void. The act of 1901, while professing in its title and opening sections to apply to all classes of property, contradicts itself, Judge Bunn says, in the later sections by declaring that only personal property shall be affected by its provisions.

But the principal objection to the validity of the act 1897 was found in the provision relating to the exemption of \$5,000 worth of inherited property. It was intended to tax only inheritances in excess of that amount, but as a fact the supreme court found that the statute has no provision relating to the exemption of \$5,000 or less was not taxed, yet if the inheritance exceeded that amount then the whole was taxed at the full rate of 5 per cent. Thus an estate of \$5,000 would pay no tax, while one of \$5,100 would have to pay \$55 before it could be distributed to the heirs.

Hence the supreme court declared, in striking the statute off the books: "The statute is invalid because it lays the tax upon the entire devise, bequest or distributive share of the specified value, and not upon the excess above a fixed, specified, exempt sum, as the amendment requires."

Upon similar reasoning, Judge Bunn declares the act of 1901 void, because while it provides the proper exemption for direct heirs, it fails to specify that exemption on behalf of collateral heirs, thereby violating the constitutional provision that the exemption shall be clearly fixed and uniform.

The fact that it is the law of 1901 which comes up for judicial interpretation at this time is due to the errors in the act of 1902. This act was drawn with extreme care, but before its passage an adroit amendment was offered and rushed through in the haste of the session, raising the tax from 5 to 10 per cent. Judge Bazille soon afterward pointed out that this was in violation of the constitutional provision limiting the tax to 5 per cent. The act of 1902 undertook to repeal the law of 1901, but having been declared void, the act of the year before was left in force.

Cancer and Consumption Cured In Duluth.

These diseases cured by the Actinic or Violet Ray Light cure that has been used with great success in Europe and New York City. In the latter place hundreds are being treated daily by this wonderful light. Absolute cures are being effected and all who try it are benefited. The treatment consists in powerful rays of light from a 500 candle power lamp which are passed through condensing lenses and thrown on the affected parts. These rays of light destroy the germs of disease without injury to the healthy tissue. It quickly relieves the pains of cancer, the severe coughing in consumption and heals all running sores. It is absolutely painless. Already a number of Duluth and Superior people have been treated with astonishing results. For particulars address,

Master Johnie Doan has been taken to the hospital at Brainerd, with a poisoned face. His eyes are both swollen shut.

Nels Gaardner has taken the contract of putting up the grass on Mr. Doan's Daggett Brook meadows at \$2.25 per ton.

There is a fine grass crop this season and no one need go short on hay this winter if he will only get a move on himself.

There would have been an abundance of blueberries for the settlers if the Indians had been kept where they belong, at Leech Lake.

A. M. Davis and family, who have been working for Dick Posten, have retired to private life and are now domiciled in Henry Steinback's house.

Independence and pride are very commendable requisites if one has the wherewith to back it up, but it does not work well with poverty as a companion.

Born, to Mr. and Mrs. H. G. Butterfield, a pair of twins, both girls, on the 6th inst. This makes the second set of twins born in the family within three years.

Nick Werthesen, who has been making his home all summer at Eagle Lake ranch, was taken to the Brainerd hospital last week, suffering with an aggravated case of gallstone.

Mr. Whitely Jr. is now surveying the numerous roads through the towns of Eagle Lake and Emily, and before another spring rolls around we hope to have some good roads to show the traveling public.

Six year old, Ivy Butterfield, on the sixth inst. while playing in her father's shop, and running the drilling machine, got her middle finger of the left hand caught in the cogs and tore off the nail and otherwise lacerated the flesh, but luckily the bone escaped injury.

Some of our residents find since the recent survey has been made that they do not live on their own land at all, while again some find their crops growing on their neighbor's property. May be the people will cease calling on lumber cruisers to run their land lines after this.

ON THE DIAMOND.

The St. Cloud team wired that they could not come to Brainerd today and tomorrow, for two games, as they were shy three or four men.

Rest.

When a razor refuses to take an edge, the barber stops fussing with it, lays it away, and in a little while, no one knows just how, the edge returns. If we treated our brains and our bodies that way instead of wearing them out on the grindstone, it would be a good deal more sensible.

The rack was one of the instruments of torture in the olden time. The music rack is usually used for the same purpose today.

LAW UNCONSTITUTIONAL.

Judge Brown Renders Decision Anent Inheritance Law Which is of Importance

Judge Bunn in the district court of Hennepin county rendered a decision of great importance in the matter of the estate of Stina Johnson. He overruled the action of Probate Judge Bazille, who refused to issue a decree for the distribution of the estate until the inheritance tax should have been paid, and grants an order directing the probate judge to proceed to the distribution of the estate. This order is based on Judge Bunn's conclusion that the inheritance tax law of 1901 is unconstitutional and void. Judge Bunn's decision, if sustained by the supreme court, will leave the state without an inheritance tax law.

Judge Bunn finds that the law of 1901 is invalid for practically the same defects which caused the supreme court to invalidate the act of 1897. The latter statute was so written as to apply only to personal property, and on this account was held void. The act of 1901, while professing in its title and opening sections to apply to all classes of property, contradicts itself, Judge Bunn says, in the later sections by declaring that only personal property shall be affected by its provisions.

But the principal objection to the validity of the act 1897 was found in the provision relating to the exemption of \$5,000 worth of inherited property. It was intended to tax only inheritances in excess of that amount, but as a fact the supreme court found that the statute has no provision relating to the exemption of \$5,000 or less was not taxed, yet if the inheritance exceeded that amount then the whole was taxed at the full rate of 5 per cent. Thus an estate of \$5,000 would pay no tax, while one of \$5,100 would have to pay \$55 before it could be distributed to the heirs.

Hence the supreme court declared, in striking the statute off the books: "The statute is invalid because it lays the tax upon the entire devise, bequest or distributive share of the specified value, and not upon the excess above a fixed, specified, exempt sum, as the amendment requires."

Upon similar reasoning, Judge Bunn declares the act of 1901 void, because while it provides the proper exemption for direct heirs, it fails to specify that exemption on behalf of collateral heirs, thereby violating the constitutional provision that the exemption shall be clearly fixed and uniform.

The fact that it is the law of 1901 which comes up for judicial interpretation at this time is due to the errors in the act of 1902. This act was drawn with extreme care, but before its passage an adroit amendment was offered and rushed through in the haste of the session, raising the tax from 5 to 10 per cent. Judge Bazille soon afterward pointed out that this was in violation of the constitutional provision limiting the tax to 5 per cent. The act of 1902 undertook to repeal the law of 1901, but having been declared void, the act of the year before was left in force.

RESTFUL SLEEP.

Many Brainerd People Find it Hard to Get.

Hard to sleep at night.
With that awful bane, itching piles.
With irritating Eczema,
With any itchiness of the skin.
Doan's Ointment relieves and cures.

Here's Brainerd testimony to prove it:
Mrs. S. Brain, of 125 South Ninth street, says: I can recommend Doan's Ointment highly for hemorrhoids, an affliction which gave me no end of misery. Procuring a box at a drug store I only made a few applications of the ointment and there has not been the slightest annoyance since. I am fully convinced after such an experience, that Doan's Ointment is a medicine which can be relied upon to cure anyone suffering from an exasperating annoyance as I had.

Sold for 50 cents a box, at the McFadden Drug Co., H. P. Dunn & Co. and all druggists. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Cancer and Consumption

Cured In Duluth.

These diseases cured by the Actinic or Violet Ray Light cure that has been used with great success in Europe and New York City. In the latter place hundreds are being treated daily by this wonderful light. Absolute cures are being effected and all who try it are benefited. The treatment consists in powerful rays of light from a 500 candle power lamp which are passed through condensing lenses and thrown on the affected parts. These rays of light destroy the germs of disease without injury to the healthy tissue. It quickly relieves the pains of cancer, the severe coughing in consumption and heals all running sores. It is absolutely painless. Already a number of Duluth and Superior people have been treated with astonishing results. For particulars address,

W. E. Seelye returned on the early morning train from his month's sojourn in North Carolina where he is interested with some half dozen other capitalists in this city in a gold mine. A company was organized in this state last winter with several Stillwater, Bemidji and Brainerd men, and the new concern is known as the Stillwater Gold Mining Company. They purchased a mine in North Carolina which has since developed into one of the best properties in the state and which is sure to increase in value from now on and net each one of the investors a fortune.

They have two ten stamp mills running at present and all other machinery necessary to the development of the mine is being installed. Besides a large quantity of gold it is said that there is an unusual amount of ore in sight and the prospects are particularly bright. Mr. Seelye stated this morning that there is enough gold in sight now to keep the mills in operation for many years to come.

BIG POTATO CROP.

This Essential Product will be Harvested
In Large Measure Throughout
The State.

Grain is not the only big crop that the railroads are looking forward to handling this fall.

The heaviest potato crop the state has ever known is due for harvesting within two weeks, and the railroads will have a good deal of business out of it. It is said that there is an increase of 15 per cent in potato acreage, and a railroad man, whose road handles a good deal of the product, estimates that shipments out of Minnesota will be 12,000 cars this year against 8,000 cars last year, an increase of 50 per cent. The Minnesota crop is almost entirely a shipping crop. Iowa raises more potatoes than Minnesota, or more than any other state for that matter, but she ships almost nothing. Minnesota potatoes go into Texas, Oklahoma, Kansas, Tennessee, Kentucky, Ohio, and other states South and East. Floods have destroyed the crops in sections of Kansas and Missouri that usually raise many potatoes, and the output there will be light.

The crop is nearly ready, and it will begin to move by Aug. 15, about two weeks earlier than usual. Prices will be good, but they will not be as they were the last year, when a man with a productive field of potatoes was bigger than the coal man, the plumer or the ice man. The large crop will prevent any such high prices this year as there was last.

The potato-growing belt extends from the Twin cities up to the northern part of the state, as far up as it is possible to be without getting away from the market. Crow Wing county soil is particularly well adapted for potatoes and the yield in this county will be large.

Dr. Bothne Pitched the Game and
Struck Out Eleven Men—
Some Great Hitting

Brainerd 14; Minneapolis Javaz 3. The game at Athletic park yesterday afternoon between the locals and the Minneapolis Javaz was a rather one sided affair. The team from Minneapolis put up a snappy game but they were entirely outclassed by the Brainerd sluggers. Dr. Bothne was put in the box by the locals and he can pitch a stroke or two himself. He succeeded in fanning out eleven men and did some good work throughout. A bunching of hits in the sixth inning netted Brainerd seven runs and then again in the ninth four runs were brought in, in the same effective manner. Nehr and Boyle distinguished themselves by putting two long ones over the fence for home runs, both in the seventh inning.

The day was a rather bad one, as it rained quite hard during the morning and a strong cool northwest wind was blowing, but at that there was a very good attendance of the fans.

This team from Minneapolis claim the championship of the Twin cities but this is doubted. They have played and defeated the Great Northern team and expected to play the winner of yesterday's game between the Toozee's and the Gannymedes for the championship of the Twin Cities.

Henning was in the box for the Minneapolis team and off his delivery the local team made thirteen hits. Bothne, the first up, struck out and Sullivan went out from Berry to Jess at first. Bemis singled and Nehr smiled when given a pass to first base, but Englebreton flew out to Plant in left field retiring the side. For the Javaz it was one, two, three order. Jess struck out, Vincent went out from Bothne to Williams at first and Olson went out from Spelley to Williams on first.

In the second or third inning there was nothing doing but in the fourth Brainerd made its first score. Bemis flied out to Berry, and Nehr got life at first on Olson's error. Englebreton was back in the game with the stick again and landed a beauty of a two bagger scoring Nehr, who had advanced to second base. Spelley struck out, and Flynn went out on a dinky fly popup to Henning, retiring the side. The Javaz also scored in this inning, Berry putting the ball over the fence for a home run.

The Javaz met their Waterloo in the sixth when the seven runs were made. Englebreton up got life on Grod's error but Spelley flied out to Dubay. Flynn got first on Olson's error but Boyle up took a smash at the ball and made a home run scoring Flynn and Englebreton. Then Bothne took one of his old third-base liners and Sullivan followed with a single. Bemis singled and Bothne scored, then Nehr got a home run and he Sullivan and Bemis crossed the rubber. Williams was called out for interference with the ball and on the second time round Spelley flied out to Dubay.

After the fatal inning for the Javaz there was not much interest in the game as it was a cinch that the Javaz could not overcome the big lead.

MUSIC AND DRAMA.

"THELMA" TONIGHT.

The offering at the Brainerd opera house tonight will be "Thelma," a dramatization of the novel of the same name written by Marie Corelli. The following is the way the West Superior Leader looks at the play and players:

"The theatre season for Superior was opened up at the Grand last night in a fitting manner. "Thelma" was the play. It was a dramatization of Marie Corelli's novel of the same name and was just enough out of the ordinary to hold the closest attention of the audience throughout. The cast of characters was an excellent one and the stage settings were magnificent. There was special scenery for every act and the electrical effects were very beautiful. The acting was all very close to perfection and that of "Thelma" herself could not have been improved upon. The easy grace and naturalness with which she carried out her rather difficult part was charming to the last degree and excited expression of the greatest admiration from the appreciative audience.

"The play was very well attended, every seat was full in fact."

"MC CARTHY'S MISHAPS."

The Irishman in the various walks of life by his witty sayings and amusing actions, causes the majority of the smiles which lighten the burdens of humanity. The Irishman on the stage only exaggerates the Irishman we meet every day. However, it is universally acknowledged by critics that no other man can so successfully portray the careless, happy-go-lucky Irishman as Barney Ferguson and that there is no play in which Mr. Ferguson has ever been featured that gave him so many opportunities as "McCarthy's Mishaps" in which he appears. He will introduce his latest specialty with John Mack, the team being known as Ferguson and Mack; this is the funniest of all eccentric specialties. Other specialties by Caron and Herbert, the world's greatest comedy acrobats, James E. Rome and Marguerite Ferguson, Charlotte Ray, Dick Ferguson and Grace Passmore, the D'Estelle Sisters, and the Misses Fenn and Wheeler, Virginia Logan and a company of twenty people people will come to the opera house Friday, Aug. 22 for one performance.

"A THOROUGHbred TRAMP"

In this era of good times when people have plenty of money to spend for amusement, theatrical ventures have prospered to a degree heretofore unknown. Elmer Walters' attraction "A Thoroughbred Tramp" has shared in this prosperity but to such a great extent as to cause surprise and wonderment among the theatrical fraternity. Opening as it did with but few city bookings it scored such an instantaneous success on the occasion of its opening in Chicago that Mr. Walters was besieged with requests for bookings by city managers from Denver to New York. These grew so urgent that a second company was placed on the road, which duplicated the success of the first. In Chicago, Indianapolis, Toledo and other large cities records were broken. In Denver the police stopped the sale of tickets, so great was the crush. The smaller cities duplicated, as far as capacity would permit, and the close of the season showed a handsome sum on the good side of Mr. Walters' ledger. "A Thoroughbred Tramp" will be seen here at the Brainerd Opera House, Aug. 14.

of the Northern Pacific which, in its two seasons of service has justly obtained the reputation of being the "Crack Train of the Northwest," was again placed in commission May 4, 1902.

This train replaced trains 11 and 12 and the twice-a-day through train services is maintained, as heretofore.

The "Limited" runs between St. Paul and Portland, via Butte, Spokane, Seattle and Tacoma as in previous years, and is electric lighted, steam heated and vestibuled.

New, modernized Pullmans, the most advanced type of Tourist Sleeping Cars, new Northern Pacific Railway Dining Cars, the usual fine equipment of regular Day Coaches, etc., and crowning all, the superb Observation cars of the Northern Pacific Railway at the rear of these trains, all together form a train unexcelled anywhere. It is worth something to see the Northwest on a train like this. Passengers having paid for first-class Pullman berths have the privilege of the Observation car and its fine library and reading room free, others holding first-class tickets pay a small fee for the privilege.

MUSIC AND DRAMA.

"THELMA" TONIGHT.

The offering at the Brainerd opera house tonight will be "Thelma," a dramatization of the novel of the same name written by Marie Corelli. The following is the way the West Superior Leader looks at the play and players:

"The theatre season for Superior was opened up at the Grand last night in a fitting manner. "Thelma" was the play. It was a dramatization of Marie Corelli's novel of the same name and was just enough out of the ordinary to hold the closest attention of the audience throughout. The cast of characters was an excellent one and the stage settings were magnificent. There was special scenery for every act and the electrical effects were very beautiful. The acting was all very close to perfection and that of "Thelma" herself could not have been improved upon. The easy grace and naturalness with which she carried out her rather difficult part was charming to the last degree and excited expression of the greatest admiration from the appreciative audience.

"The play was very well attended, every seat was full in fact."

"MC CARTHY'S MISHAPS."

The Irishman in the various walks of life by his witty sayings and amusing actions, causes the majority of the smiles which lighten the burdens of humanity. The Irishman on the stage only exaggerates the Irishman we meet every day. However, it is universally acknowledged by critics that no other man can so successfully portray the careless, happy-go-lucky Irishman as Barney Ferguson and that there is no play in which Mr. Ferguson has ever been featured that gave him so many opportunities as "McCarthy's Mishaps" in which he appears. He will introduce his latest specialty with John Mack, the team being known as Ferguson and Mack; this is the funniest of all eccentric specialties. Other specialties by Caron and Herbert, the world's greatest comedy acrobats, James E. Rome and Marguerite Ferguson, Charlotte Ray, Dick Ferguson and Grace Passmore, the D'Estelle Sisters, and the Misses Fenn and Wheeler, Virginia Logan and a company of twenty people people will come to the opera house Friday, Aug. 22 for one performance.

"A THOROUGHbred TRAMP"

In this era of good times when people have plenty of money to spend for amusement, theatrical ventures have prospered to a degree heretofore unknown. Elmer Walters' attraction "A Thoroughbred Tramp" has shared in this prosperity but to such a great extent as to cause surprise and wonderment among the theatrical fraternity. Opening as it did with but few city bookings it scored such an instantaneous success on the occasion of its opening in Chicago that Mr. Walters was besieged with requests for bookings by city managers from Denver to New York. These grew so urgent that a second company was placed on the road, which duplicated the success of the first. In Chicago, Indianapolis, Toledo and other large cities records were broken. In Denver the police stopped the sale of tickets, so great was the crush. The smaller cities duplicated, as far as capacity would permit, and the close of the season showed a handsome sum on the good side of Mr. Walters' ledger. "A Thoroughbred Tramp" will be seen here at the Brainerd Opera House, Aug. 14.

THE
"NORTH COAST LIMITED"

of the Northern Pacific which, in its two seasons of service has justly obtained the reputation of being the "Crack Train of the Northwest," was again placed in commission May 4, 1902.

This train replaced trains 11 and 12 and the twice-a-day through train services is maintained, as heretofore.

The "Limited" runs between St. Paul and Portland, via Butte, Spokane, Seattle and Tacoma as in previous years, and is electric lighted, steam heated and vestibuled.

New, modernized Pullmans, the most advanced type of Tourist Sleeping Cars, new Northern Pacific Railway Dining Cars, the usual fine equipment of regular Day Coaches, etc., and crowning all, the superb Observation cars of the Northern Pacific Railway at the rear of these trains, all together form a train unexcelled anywhere. It is worth something to see the Northwest on a train like this. Passengers having paid for first-class Pullman berths have the privilege of the Observation car and its fine library and reading room Free, others holding first-class tickets pay a small fee for the privilege.

This train carries the east-bound Yellowstone Park travel and the Park Pullman during the Park season, May 30 to September 15th.

DIES VERY SUDDENLY

SENATOR M'ILLAN OF MICHIGAN
EXPIRES AT MANCHESTER-BY-SEA.

HEART DISEASE THE CAUSE

Death Ensues After an Illness of Only
a Few Hours—News Came as a
Great Shock to Washington Friends,
as He Appeared in Good Health
When Congress Adjourned—Brief
Sketch of His Career.

Washington, Aug. 11.—A dispatch
has been received here announcing
the death of Senator James McMillan
of Michigan at an early hour at his
summer home at Manchester-by-the-
Sea, Mass. Death was the result of
heart failure following congestion, after
an illness of a very few hours. The
news came as a great shock to his
friends here, as when the senator left
Washington shortly after the adjourn-
ment of congress he appeared to be in
good health and looked forward with
much satisfaction to a quiet and restful
summer. For some years Senator
McMillan has made his summer home

SENATOR JAMES M'ILLAN OF MICHIGAN.

at Manchester-by-the-Sea, having
erected a very fine cottage at that
place. While no information on the
point has been received here the ex-
pectation is that his remains will be
taken to Detroit, Mich., and be de-
posited in the family vault at Elm-
wood cemetery. The body of his son,
Captain John H. McMillan, who served
in the Spanish war and who died sev-
eral months ago, rests there. The
senator leaves a widow, three sons, W.
C. Phillip and Frank, all of Detroit,
and a daughter, Mrs. McMillan and
daughter accompanied the senator to
Manchester after the adjournment of
congress.

SKETCH OF HIS CAREER.

Senator McMillan Was a Liberal Con-
tributor to Charity.

Senator James McMillan was born
in Hamilton, Ont., May 12, 1838, and
came to Detroit when seventeen years
of age. Soon after his arrival in De-
troit he was appointed purchasing
agent of the Detroit and Milwaukee
railroad, which position he held for
several years. In company with sev-
eral others he organized the Michigan
Car company in 1864, and afterwards
purchased the car works at St. Louis
and established some works at Cam-
bridge, Ind. and London, Ont. Sen-
ator McMillan became interested in
the lake carrying trade and invested
large sums in lake transportation,
both freight and passenger. He also
was heavily interested in the ship
building business on the Great Lakes.
Senator McMillan was a large con-
tributor to charity of various kinds
and made a number of notable gifts to
educational institutions. He gave to
the University of Michigan one of
most complete Shakespearean librar-
ies in the United States and he also
gave to that institution McMillan hall.
To the Michigan Agricultural college
at Lansing he gave the Teper collec-
tion of insects and to Albion college
he gave the McMillan chemical labo-
ratory. He also gave to the Mary Allen
seminary of Crockett, Tex., a school
for the education of colored girls,
\$16,000 necessary to complete its en-
dowment. The McMillan family has
suffered sore affliction and severe
loss by death in the past year. Sen-
ator McMillan's son, James H. Mc-
Millan, and his grandson, James H.
McMillan, Jr., died in Colorado within
a few months of each other last win-
ter. In addition to the senator's sud-
den death, his brother, William Mc-
Millan, and his nephew, Maurice, have
recently died.

Recognized Republican Leader.

Senator McMillan was the recog-
nized Republican leader in Michigan
and had been since his first election as
senator in 1889. When ex-Senator
Chandler died in 1879 Senator Mc-
Millan was secretary of the Republi-
can state central committee. Chan-
dler's death left the Republican party
in Michigan without a dominant leader
for several years. In 1885 Mr. Mc-
Millan was elected chairman of the
state central committee and from that
time until his death he was the leader
of his party in Michigan. He held the
state chairmanship until 1896, serving
for seven years after his election to
the senate. Senator McMillan's suc-
cess in politics, as well as in business,
can be largely accredited to his won-
derful executive ability. He was not
an orator and seldom spoke before an
audience. His life was clean and his
character spotless. His word was
sacred. An unqualified promise once
given was never broken. A qualified
promise was never changed from the
original qualifications. The late Gov-
ernor H. S. Pingree opposed Senator
McMillan strongly during the last
years of the former's career in state
politics.

IN ITS FOURTEENTH WEEK.

Great Strike of Anthracite Miners
Drags Monotonously On.

Wilkesbarre, Pa., Aug. 11.—This is
the fourteenth week of the anthracite
miners strike. President Mitchell is
authoritative in the statement that the
miners are in good shape. Contribu-
tions to the relief fund are coming in
from many quarters now and the dis-
satisfaction which was first evinced
over the distribution has now disap-
peared and the strikers have settled
down to what they believe is going to
be a much longer siege than was at
first anticipated.

While the strike leaders are inclined
to throw cold water on all reports that
an attempt may be made to resume
mining at an early day in the Wyom-
ing region, it would not be at all sur-
prising should one or two of the mines
in this section be started up this week.
The same story has been told for
weeks past, but there is a well authen-
ticated report in circulation that the
Lehigh and Wilkesbarre Coal com-
pany may start up work at its Wan-
amie colliery some day this week. At
the offices of the company, however,
those in charge refuse to give out any
information.

A general review of the whole strike
region shows that unless the operators
can break the ranks of the strikers by
starting up a colliery here and there,
the men will be inclined to remain
out for some time yet. The amount of
relief to be distributed will not satisfy
all, but the miners seem to be will-
ing to make some sacrifices in that
direction in the hope that eventually
they will win.

Murdered by an Aged Man.

New York, Aug. 11.—Pietro Guard-
ina, a Neapolitan fish dealer of Brook-
lyn, was murdered by a Sicilian, An-
toni Ziroto in Mulberry Bond. Ziro-
to is eighty-two years old, but he
wielded a knife which his wife handed
him, with deadly precision and force
sufficient to sever Guardina's jugular.
The Neapolitan's wife and two chil-
dren, his brother and several other re-
latives, were with him when he was
murdered and in a frenzy of grief
they knelt beside the body and bathed
their faces with the blood that flowed
from the wounded man. The stab-
bing was the outcome of a street
altercation.

TELEGRAPHIC BREVITIES.

The strike of the United Mine Work-
ers of Michigan has been officially de-
clared off.

One man was instantly killed and
five persons were injured, one fatally,
by the explosion of a boiler at Adrian,
Mich.

The Public Ledger and the Philadel-
phia Times announce that on and
after Tuesday, Aug. 12, the two news-
papers will be consolidated.

Three persons were killed and a
dozen seriously injured as a result of
the derailing of an express train be-
tween Charleville and Lille, near
Signy le Petit, France.

Cholera continues to decrease in
Manila and a majority of the provin-
ces, and the prediction that the dis-
ease would be worse in the month of
August has not been fulfilled.

ARE DESPERATE CHARACTERS.

Three Burlington Train Robbery Sus-
pects Arrested at Waseca, Minn.

Waseca, Minn., Aug. 11.—Much ex-
citement still prevails as a result of
the duel between Sheriff Frank Collins
and the desperado Saturday and the
subsequent man hunt conducted by
the sheriff's posse, which resulted in
the fellow's capture in a swamp to-
gether with his two pals, who were
captured by another posse, headed by
Chief of Police McGonough. He is
lying in the county jail suffering from
his wounds and awaiting information.
A telegram from Sioux City, Ia.,
develops that three men are wanted
there for recent jail breaking and of-
ficers from that place will come here
to view the prisoners. It is not
thought that they are the parties
wanted there, inasmuch as they bear
no marks of recent incarceration. It
is plainly evident that the men are
much more desperate than the ordi-
nary criminals and the fact that
they arrived in this city from the east
lends strength to the train robbery
theory.

BURIED IN THE CELLAR.

Body of Mrs. Annie Bartholin Found
in Her Chicago Home.

Chicago, Aug. 11.—The body of Mrs.
Annie Bartholin, who, it is believed,
was murdered by her son, William
Bartholin, also wanted for killing his
sweetheart, Minnie Mitchell, was
found in the basement of her home at
4310 Calumet avenue.

The remains were wrapped in a
quilt and were in a fair state of
preservation. While no official ex-
amination has yet been made to de-
termine the immediate cause of death,
there is a sufficient number of bruises
upon the corpse to prove that she had
received, prior to her death, a beat-
ing severe enough to have killed her.
She evidently had been pounded
viciously with a heavy club. The con-
crete floor of the cellar had been re-
moved and beneath it a hole deep
enough to hold the body had been dug.

MILLIONAIRE MURDERED.

Walter A. Scott of Chicago Stabbed
by a Civil Engineer.

Chicago, Aug. 11.—Walter A. Scott,
a millionaire clubman and president of
the Illinois Wire company, was stab-
bed and killed by Walter L. Stebbings,
a civil engineer, shortly before 10
o'clock. The tragedy occurred in Mr.
Scott's private office in the Monard-
nock building, and was precipitated by
a dispute over work which had been
done by the slayer.

The two men had a quarrel in the
course of which Stebbings, it is said,
called Scott a liar. Scott resented the
imputation with a blow, according to
report, whereupon Stebbings grabbed
a paper knife lying on his employer's
desk and plunged it twice into Scott's
side.

BOTH WILL DIE.

Lovers' Quarrel Ends in a Fatal Shoot-
ing at Allentown, Pa.

Allentown, Pa., Aug. 11.—During a
lovers' quarrel at the woman's home,
Harry S. Weston shot Bertha T.
Brown and himself. The woman was
shot in the left temple, the bullet
coming out of the right cheek. Weston
shot himself over the right ear, the
bullet penetrating the brain and being
split in four parts. Both are at the
hospital and cannot recover. They are
each twenty-three years of age. The
woman is the wife of Robert M.
Brown, but was not living with her
husband.

AGED FARMER TORTURED.

Masked Robbers Pour Oil on His Feet
and Start a Blaze.

Dayton, O., Aug. 11.—Jacob Mumma,
an aged farmer who lives alone north
of the city, was tortured by masked
robbers who broke into his house and
is in a critical condition as a result of
his injuries. Mumma attempted to
defend himself with a shotgun, but his
aim was bad and he was overcome
and bound. The robbers poured coal
oil on his feet and started a blaze to
compel him to reveal the hiding place
of money he was supposed to have,
but they secured only an insignificant
sum.

KILLED WIFE WITH AN AXE.

Wealthy Michigan Farmer Then Hangs
Himself in the Barn.

Ithaca, Mich., Aug. 11.—S. E. Sower,
a well-to-do farmer who has been liv-
ing in this village for several months,
killed his wife with an axe as she lay
in bed and then hanged himself in
his barn. Insanity caused by des-
pondency and grief over the death of
his only daughter ten years ago im-
pelled him to commit the crime. Two
weeks ago Sower consulted a local
physician as to his mental condition
and was told that his mentality was
gradually getting weaker.

MINNESOTAN MURDERED.

Body of a Sandstone Man Found by
the Railway Track in Utah.

Echo, Utah, Aug. 11.—A body iden-
tified by papers as that of John Mc-
Donald of Sandstone, Minn., was dis-
covered alongside the Union Pacific
tracks west of here.

An ugly hole, apparently inflicted by
some dull instrument, appears on the
back of the head, and the body is
otherwise bruised and mangled.
The authorities believe McDonald
was killed by traps, their purpose
being robbery.

Killed the City Marshal.

Joplin, Mo., Aug. 11.—At Webb City,
a mining town two miles from here,
City Marshal Rich was shot and killed
by Joe Gideon, who was then killed by
a policeman. The officers were trying
to arrest Gideon and his brother Jim.
After the shooting Jim was hurried to
the police station to prevent violence,
a mob gathering quickly.

Murdered a Saloonkeeper.

Oklahoma City, Okla., Aug. 11.—Ed-
ward White, proprietor of a saloon,
was shot and killed on the street here
by Arthur Moore. White was walking
along the street with Mrs. Moore
when Moore appeared and began
shooting. Moore is under arrest.

DIES VERY SUDDENLY

SENATOR M'MILLAN OF MICHIGAN
EXPIRES AT MANCHESTER-BY-THE-SEA.

HEART DISEASE THE CAUSE

Death Ensues After an Illness of Only
a Few Hours—News Came as a
Great Shock to Washington Friends,
as He Appeared in Good Health
When Congress Adjourned—Brief
Sketch of His Career.

Washington, Aug. 11.—A dispatch
has been received here announcing
the death of Senator James McMillan
of Michigan at an early hour at his
summer home at Manchester-by-the-
Sea, Mass. Death was the result of
heart failure following congestion, after
an illness of a very few hours. The
news came as a great shock to his
friends here, as when the senator left
Washington shortly after the adjourn-
ment of congress he appeared to be in
good health and looked forward with
much satisfaction to a quiet and rest-
ful summer. For some years Senator
McMillan has made his summer home

SENATOR JAMES M'MILLAN OF MICHIGAN.

at Manchester-by-the-Sea, having
erected a very fine cottage at that
place. While no information on the
point has been received here the ex-
pectation is that his remains will be
taken to Detroit, Mich., and be de-
posited in the family vault at Elm-
wood cemetery. The body of his son,
Captain John H. McMillan, who served
in the Spanish war and who died sev-
eral months ago, rests there. The
senator leaves a widow, three sons, W.
C., Philip and Frank, all of Detroit,
and a daughter, Mrs. McMillan and
daughter accompanied the senator to
Manchester after the adjournment of
congress.

SKETCH OF HIS CAREER.

Senator McMillan Was a Liberal Con-
tributor to Charity.

Senator James McMillan was born
in Hamilton, Ont., May 12, 1838, and
came to Detroit when seventeen years
of age. Soon after his arrival in De-
troit he was appointed purchasing
agent of the Detroit and Milwaukee
railroad, which position he held for
several years. In company with sev-
eral others he organized the Michigan
Car company in 1864, and afterwards
purchased the car works at St. Louis
and established some works at Cam-
bridge, Ind., and London, Ont. Sen-
ator McMillan became interested in
the lake carrying trade and invested
large sums in lake transportation,
both freight and passenger. He also
was heavily interested in the ship
building business on the Great Lakes.

Senator McMillan was a large con-
tributor to charity of various kinds
and made a number of notable gifts
to educational institutions. He gave
to the University of Michigan one of
most complete Shakespearean librar-
ies in the United States and he also
gave to that institution McMillan hall.
To the Michigan Agricultural college
at Lansing he gave the Teper collec-
tion of insects and to Albion college
he gave the McMillan chemical labo-
ratory. He also gave to the Mary Allen
seminary of Crockett, Tex., a school
for the education of colored girls,
\$16,000 necessary to complete its en-
dowment. The McMillan family has
suffered sore affliction and severe
loss by death in the past year. Sen-
ator McMillan's son James H. Mc-
Millan, and his grandson, James H.
McMillan, Jr., died in Colorado within
a few months of each other last win-
ter. In addition to the senator's sud-
den death, his brother, William Mc-
Millan, and his nephew, Maurice, have
recently died.

Recognized Republican Leader.

Senator McMillan was the recogniz-
ed Republican leader in Michigan and
had been since his first election as
senator in 1889. When ex-Senator
Chandler died in 1879 Senator Mc-
Millan was secretary of the Republi-
can state central committee. Chan-
dler's death left the Republican party
in Michigan without a dominant leader
for several years. In 1885 Mr. Mc-
Millan was elected chairman of the
state central committee and from that
time until his death he was the leader
of his party in Michigan. He held the
state chairmanship until 1896, serving
for seven years after his election to
the senate. Senator McMillan's suc-
cess in politics, as well as in business,
can be largely accredited to his won-
derful executive ability. He was not
an orator and seldom spoke before an
audience. His life was clean and his
character spotless. His word was
sacred. An unqualified promise once
given was never broken. A qualified
promise was never changed from the
original qualifications. The late Gov-
ernor H. S. Pingree opposed Senator
McMillan strongly during the last
years of the former's career in state
politics.

IN ITS FOURTEENTH WEEK.

Great Strike of Anthracite Miners
Drags Monotonously On.

Wilkesbarre, Pa., Aug. 11.—This is
the fourteenth week of the anthracite
miners strike. President Mitchell is
an authority for the statement that the
miners are in good shape. Contribu-
tions to the relief fund are coming in
from many quarters now and the dis-
satisfaction which was first evinced
over the distribution has now disap-
peared and the strikers have settled
down to what they believe is going to
be a much longer siege than was at
first anticipated.

While the strike leaders are inclined
to throw cold water on all reports that
an attempt may be made to resume
mining at an early day in the Wyom-
ing region, it would not be at all sur-
prising should one or two of the mines
in this section be started up this week.
The same story has been told for
weeks past, but there is a well authen-
ticated report in circulation that the
Lehigh and Wilkesbarre Coal com-
pany may start up work at its Wan-
amie colliery some day this week. At
the offices of the company, however,
those in charge refuse to give out any
information.

A general review of the whole strike
region shows that unless the operators
can break the ranks of the strikers by
starting up a colliery here and there,
the men will be inclined to remain
out for some time yet. The amount of
relief to be distributed will not satisfy
all, but the miners seem to be will-
ing to make some sacrifices in that
direction in the hope that eventually
they will win.

Murdered by an Aged Man.

New York, Aug. 11.—Petro Guard-
ina, a Neapolitan fish dealer of Brook-
lyn, was murdered by a Sicilian, An-
tonio Ziroto in Mulberry Bond. Ziro-
to is eighty-two years old, but he
wielded a knife which his wife handed
him, with deadly precision and force
sufficient to sever Guardina's jugular.
The Neapolitan's wife and two chil-
dren, his brother and several other
relatives, were with him when he was
murdered and in a frenzy of grief
they knelt beside the body and bathed
their faces with the blood that flowed
from the wounded man. The stab-
bing was the outcome of a street
altercation.

TELEGRAPHIC BRIEVITIES.

The strike of the United Mine Work-
ers of Michigan has been officially de-
clared off.

One man was instantly killed and
five persons were injured, one fatally,
by the explosion of a boiler at Adrian,
Mich.

Mrs. Eliza Young, the oldest actress
of the American stage, is dead at the
Actors' Fund home, West New Bright-
on, S. I.

The Public Ledger and the Philadel-
phia Times announce that on and
after Tuesday, Aug. 12, the two news-
papers will be consolidated.

Three persons were killed and a
dozen seriously injured as a result of
the derailing of an express train be-
tween Charleville and Lille, near
Signy le Petit, France.

Cholera continues to decrease in
Manila and a majority of the prov-
inces, and the prediction that the
disease would be worse in the month
of August has not been fulfilled.

After a protracted illness James
Joseph Jacques Tissot, the artist and
the world-renowned illustrator of in-
cidents in the life of Christ, is dead
at Paris. He was sixty-six years old.

ARE DESPERATE CHARACTERS.

Three Burlington Train Robbery Sus-
pects Arrested at Waseca, Minn.

Waseca, Minn., Aug. 11.—Much ex-
citement still prevails as a result of
the duel between Sheriff Frank Collins
and the desperado Saturday and
the subsequent man hunt conducted by
the sheriff's posse, which resulted in
the fellow's capture in a swamp to-
gether with his two pals, who were
captured by another posse, headed by
Chief of Police McGonough. He is
lying in the county jail suffering from
his wounds and awaiting information.

A telegram from Sioux City, Ia.,
develops that three men are wanted
there for recent jail breaking and of-
ficers from that place will come here
to view the prisoners. It is not
thought that they are the parties
wanted there, inasmuch as they bear
no marks of recent incarceration. It
is plainly evident that the men are
much more desperate than the ordi-
nary criminals and the fact that they
arrived in this city from the east
lends strength to the train robbery
theory.

BURIED IN THE CELLAR.

Body of Mrs. Annie Bartholin Found
in Her Chicago Home.

Chicago, Aug. 11.—The body of Mrs.
Annie Bartholin, who, it is believed,
was murdered by her son, William
Bartholin, also wanted for killing his
sweetheart, Minnie Mitchell, was
found in the basement of her home at
4310 Calumet avenue.

The remains were wrapped in a
quilt and were in a fair state of
preservation. While no official ex-
amination has yet been made to de-
termine the immediate cause of death,
there is a sufficient number of bruises
upon the corpse to prove that she had
received, prior to her death, a beat-
ing severe enough to have killed her.
She evidently had been pounded
viciously with a heavy club. The con-
crete floor of the cellar had been re-
moved and beneath it a hole deep
enough to hold the body had been dug.

MILLIONAIRE MURDERED.

Walter A. Scott of Chicago Stabbed
by a Civil Engineer.

Chicago, Aug. 11.—Walter A. Scott,
a millionaire clubman and president of
the Illinois Wire company, was stab-
bed and killed by Walter L. Stebbings,
a civil engineer, shortly before 10
o'clock. The tragedy occurred in Mr.
Scott's private office in the Monack-
nock building, and was precipitated by
a dispute over work which had been
done by the slayer.

The two men had a quarrel in the
course of which Stebbings, it is said,
called Scott a liar. Scott resented the
imputation with a blow, according to
report, whereupon Stebbings grabbed
a paper knife lying on his employer's
desk and plunged it twice into Scott's
side.

BOTH WILL DIE.

Lovers' Quarrel Ends in a Fatal Shoot-
ing at Allentown, Pa.

Allentown, Pa., Aug. 11.—During a
lovers' quarrel at the woman's home,
Harry S. Weston shot Bertha T.
Brown and himself. The woman was
shot in the left temple, the bullet
coming out of the right cheek. Weston
shot himself over the right ear, the
bullet penetrating the brain and being
split in four parts. Both are at the
hospital and cannot recover. They are
each twenty-three years of age. The
woman is the wife of Robert M.
Brown, but was not living with her
husband.

AGED FARMER TORTURED.

Masked Robbers Pour Oil on His Feet
and Start a Blaze.

Dayton, O., Aug. 11.—Jacob Mumma,
an aged farmer who lives alone north
of the city, was tortured by masked
robbers who broke into his house, and
is in a critical condition as a result of
his injuries. Mumma attempted to
defend himself with a shotgun, but his
aim was bad and he was overcome
and bound. The robbers poured coal
oil on his feet and started a blaze to
compel him to reveal the hiding place
of money he was supposed to have,
but they secured only an insignificant
sum.

KILLED WIFE WITH AN AXE.

Wealthy Michigan Farmer Then Hangs
Himself in the Barn.

Ithaca, Mich., Aug. 11.—S. E. Sower,
a well-to-do farmer who has been liv-
ing in this village for several months,
killed his wife with an axe as she lay
in bed and then hanged himself in
his barn. Insanity caused by des-
pondency and grief over the death of
his only daughter ten years ago im-
pelled him to commit the crime. Two
weeks ago Sower consulted a local
physician as to his mental condition
and was told that his mentality was
gradually getting weaker.

MINNESOTAN MURDERED.

Body of a Sandstone Man Found by
the Railway Track in Utah.

Echo, Utah, Aug. 11.—A body iden-
tified by papers as that of John Mc-
Donald of Sandstone, Minn., was dis-
covered alongside the Union Pacific
tracks west of here.

An ugly hole, apparently inflicted by
some dull instrument, appears on the
back of the head, and the body is
otherwise bruised and mangled.

The authorities believe McDonald
was killed by tramps, their purpose
being robbery.

Killed the City Marshal.

Joplin, Mo., Aug. 11.—At Webb City,
a mining town two miles from here,
City Marshal Rich was shot and killed
by Joe Gideon, who was then killed by
a policeman. The officers were trying
to arrest Gideon and his brother Jim.
After the shooting Jim was hurried to
the police station to prevent violence,
a mob gathering quickly.

Murdered a Saloonkeeper.

Oklahoma City, Okla., Aug. 11.—Ed-
ward White, proprietor of a saloon,
was shot and killed on the street here
by Arthur Moore. White was walking
along the street with Mrs. Moore
when Moore appeared and began
shooting. Moore is under arrest.
